

Non-OEM Dealer Nominee

Mark Thomas

I have been fortunate to spend more than 20 years in this industry, all with Truck Central. From the beginning, Jeff and Andy made the transition easy by building a great name and reputation in the industry. They were both very well respected, and it seemed like everyone knew one or the other. Coming from the wholesale automotive side of the business also made for a natural transition into the industry.

I'm originally from Southeast Kansas and am proud to have a large family. I have five children, three stepchildren, two sons-in-law, two daughters-in-law, and eight grandchildren. My wife, Kim, and I enjoy spending as much time as we can attending their activities and being involved in their lives.

Outside of work and family, I enjoy playing golf and taking several trips throughout the year with friends and people I've had the opportunity to work with over the years.

It is truly an honor to be nominated for Non-OEM Dealer of the Year. I'm grateful for the people I've had the opportunity to work with throughout my career, the relationships I've built, and the support that has made the last 20+ years so rewarding.

Thank you for this recognition and nomination.
