

OEM Dealer Nominee

Jeremi Guditis

Over 24 years ago, I launched my career at the Peterbilt Denton Plant, steadily progressing through roles in sleeper trimming, chassis painting, paint robot operation, and quality assurance before transitioning into management.

In 2018, I started the Peterbilt Used Truck department, where my plant experience provided a unique perspective from production to the secondary market.

I was recently promoted to Assistant Director of Used Trucks for PACCAR Financial and currently oversee 4 retail centers. This new transition is helping me become a more well-rounded used truck individual as it is providing insights into the retail world and what it takes to run a successful used truck center.

I value my role in the Used Truck Association (UTA), where I've had the privilege of connecting with inspiring colleagues and learning from their expertise. I'm dedicated to driving continuous improvement and positive changes in every aspect of the business.

Outside of work, my family keeps me grounded. Married to AnnByron (AB) Guditis for 20 years, we raise our three children (26, 18, and 16). We embrace a "glam hippie" lifestyle of organic living and wine tasting—while we're no sommeliers, we can point you to a great red.

Our hobbies center on our kids' activities and creating cherished family memories through new experiences.
